The death of the year is not death at all, but a sleep to be followed by renewal. Autumn stands, not for a senson of sere and failing leaves and of desolate and mosning wind, but rather as a time of blessedly crisp, cool days with the tang of life and inspiration in the air. Summer is the senson for the golden- poon play-folk of the world. To work- ters it is likely to be one protracted ight with heat and a longing for dis- ant loveliness. It means waking after restless, nights to stiffing days. It means dragging through turgid heat in he hope that tomorrow, always tomor- row, will be cool and endurable. And then comes autumn. In through your open windows comes the clear, cool, bracing air of the world. You are ready to go out and meet life with test and force. Time for Resolutions. Why not then constitute this sea- son of awakening power, this season of refreshed vitality one of resolution? Why not determine to make yourself a force in your world, and to work and to accomplish? Why should the eve of a calendar date be saved as a time for resolutions to be made and broken? Just making resolutions and failing to keep them is a sort of breaking faith with yourself that must weaken and harm your charecter. But now, at the coming of autumn, when you feel your powers renewing themselves, when the child world goes mack to school, when the forces of busi- new is the season for determining just what power there is in you to carry you on to place in the world. Let H Mean Something to You. Take an hour off ane of these splen- fild vital days and go away alone in the open somewhere. Sit down and give yourself over to the feeling of re- newed force within yourself. Let the long of life mean something to You. Be conscious of powers couraing through your own refreshed blood. Feel a kin- ship with all the higness of nature. And then make up your mind that you have a group of matural associ- right with self and the self and	that you mean to use that power, turn from the general to the particular. Look around you. Examine the circumstances of your own life. Doesn't your work hold some chance for advancement? Can't you do all the things you have been doing far better than you have done them? Aren't there new things crying out for your same definite opening through which you may go to a bigner place in your quickened blood and clear mind shall be used. The summer of sleepless nights and headachy mornings is over. You have come to a season of bracing air, of golden sunashine and of picturesque beauty. You are a part of all the promise and strength you see around you. Determine to be an active part. Don't wait for becember 11 to awear off your had habits and swear on a few good ones. But sit down now in these first bracing days of the maining and take slock of the mential powers you enter the source of yourself a progress toward success that shall carry you site the new year on the life determination, weave for yourself a progress toward success that shall carry you site the new year on the high tide of your own ability and brave willingness to work. Money in bank, carned by honest, healthgiving work is a great blessing to anyone. People aren't so careless with money when it comes with real effort. On the other hand, effort has its compensations when frequent entries in the bank book are witness of the rewards. And yet again, those bank book entries are a LASTING soffree of satisfaction to the money earner who sees others fritter. away their earnings. There is every argument FOR Thrifty. WHAT is said to be the largest country road contract ever let in America W was made by the commissioners of Multonomah County, Oregon, which includes and surrounds the city of Portland.

Out of a total of 88 miles 74 were for Warrenite (Bitalithie), scattering contracts for concrete 13 and brick 1. The contracts apprepate \$1,250,000, and are for 16 foot roadway.

The project for improvement on a large scale began nearly two years ago when at a conference meeting of the taxpayors of the sity of Portland and Multonomal county John B. Yeon and S. Benton were urged to accept the positions of Roadmaster and Deputy Roadmaster respectively. They have since devoted nearly their entire time to investigation of the road problem, including roads of all types throughout the U. S. and Camada.

A report of the Portland Chamber of Commerce special paving committee

"We are certain that everybody concerned in this paving problem who is entirely disinterested, has been, and is now, seeking to get the VERY BEST available pavement for the county."

Yunna County, on the 29th of October awarded a contract for 17 miles of 15 foot county roads for WARRENITE (Bitulithie). These states border on California. There is a reason.
